INSTRUCTIONS

INSTRUCTIONS FOR | **MAC OS X**

1. Simply click on the icon you would like to use and select 'Get Info' from the 'File' menu.
2. In the window that pops up, click on the icon and select 'Copy' from the 'Edit' menu.
3. Now close the info window, click on the icon you would like to change and again select 'Get Info' from the 'File' menu.
4. Click on the icon inside the info window that appears and select 'Paste' from the 'Edit' menu. Close the info window and you are finished.

If you require more detailed instructions, Apple has a nice step-by-step tutorial at:
